

Number Sense Workout: Fractions (Key)

1)

Draw a picture to show your answer:
How can two candy bars be shared evenly by three kids?
All of the candy bars must be used—no leftovers.

2)

Every day the number of bacteria in the jar doubles.
After 20 days the jar is full.

When was it half ($\frac{1}{2}$) full? 10 Days

When was it an eighth ($\frac{1}{8}$) full? 2.5 Days
