

# Number Sense Workout: Fractions

1)

Draw a picture to show your answer:  
How can two candy bars be shared evenly by three kids?  
All of the candy bars must be used—no leftovers.

---

2)

Every day the number of bacteria in the jar doubles.  
After 20 days the jar is full.

When was it half ( $\frac{1}{2}$ ) full? \_\_\_\_\_

When was it an eighth ( $\frac{1}{8}$ ) full? \_\_\_\_\_
